The Own Your Own scheme allows you to buy a product for your home and pay for it weekly.
Click here for more details.

Own Your Own

Newcastle Furniture Service (NFS)

NFS (Newcastle Furniture Service) was set up in 1989 to help council tenants settle into their homes by providing some essential items of furniture.

The service has since expanded into the largest furnished tenancy provider in the UK - we currently support over 11,000 households.

How can we help you?

The service is available to you when you first take up a tenancy with Your Homes Newcastle. We will supply you with items of furniture in exchange for a weekly payment that is added to your rent.

The choice of furniture items available range from sofas, beds and washing machines to microwaves, crockery and cutlery.

And that's not all...

We also provide child safety equipment free of charge to families on a low income or means tested benefit living in Newcastle and a garden care service to YHN tenants.
