

Your Homes Newcastle East Area Board

11th January 2007

Service standard monitoring and review

Report by: Head of Business Development

Area Implications: East

For information

1. Summary

- 1.1 The report to this Board in November 2006 explained a proposal for a Charter Mark application for the housing management service. It also linked this proposal with the need to establish some housing management service standards. This report provides an update in relation to the development of housing management service standards.
- 1.2 Performance reports for the two services due to be reviewed this month, rent arrears and nuisance and harassment, have been deferred to a future meeting. This is because the review of standards for these services is linked to the review of housing management service standards.
- 1.3 This report also covers action being taken to address performance in relation to one of the Right to Buy service standards which was reported as red in November.

2. Recommendations

- 2.1 The Area board are invited to make comments and ask any questions that relate to any aspect of the report.

3. Your Homes Newcastle Strategic Objectives

- 3.1 As an element of performance management, monitoring our performance in relation to our service standards can help us achieve all of our strategic objectives.

4. Service Standard Review

- 4.1 Since the November meeting, a draft set of housing management service standards have been developed, and these are attached as an appendix to this report (Appendix 1). These service standards are based on previous standards covering a number of work areas, as follows:

Rent Arrears

Nuisance and harassment

Repairs

Your Choice Homes

New tenant

Customer Service

Property standard

- 4.2 The methodology followed in developing these draft standards for housing management has followed the process for all service standard reviews, which was described in a previous report. Previous standards in the above work areas have mostly been retained, but these have been separated between service guarantees ('what you can expect from the service') and service standards (standards that will be regularly monitored and performance reported).
- 4.3 Housing management staff are responsible for elements of all of the above work areas. For three work areas (rent arrears, new tenant and repairs) it is felt that current service standards can all be incorporated within the revised service standards for housing management, and it is proposed not to continue with separate sets of standards for these areas of work. For other areas (eg Your Choice Homes, nuisance and harassment) it is necessary to retain separate service standards either because there are specialist teams covering the services, or because the standards apply to other staff within YHN. These standards will all be reviewed after the new housing management standards have been agreed.
- 4.4 Current service standards were agreed following full consultation with service users or their representatives. In particular, the Tenants Federation were closely involved in developing the above sets of standards. Subject to any amendments or comments from Area Board members, it is proposed to discuss the revised standards with the Tenants Federation and to introduce them as soon as possible, after ensuring that mechanisms are in place to monitor performance so that this can be reported to a future Area Board meeting

5. Service Standard Monitoring

- 5.1 Appendix two gives an update in relation to the Right to Buy service standard reported as red to the last meeting of this Board. Action that has been taken since the last meeting is explained.

November Service Standards Report-Red Indicator

Right to Buy

One of the Right to Buy service standards was reported as red in November. This standard was:

‘Following a RTB notice, we will send an offer notice to 90% of customers:

-within 8 weeks for freehold properties and

-within 12 weeks for leasehold properties’

The following information in relation to this standard has been provided by the Principal Administration Officer, who has responsibility for the Right to Buy Team.

The difficulty in achieving the target for Offer Notices is directly linked to the use of external contractors by Property Services in the valuation process. Property Services have met with the failing contractor to agree and enforce the standards expected and the RTB Section are now monitoring progress on a daily basis. The delivery of these services is the subject of an ongoing Service Level Agreement review and Your Homes Newcastle have made clear their concerns about quality of service and control with regard to the external contractors.
